

Prof Dave Grattan is the Director of the Centre for Neuroendocrinology at the University of Otago in New Zealand. His research has a particular focus on the pituitary hormone prolactin and its role in the maternal brain during pregnancy and lactation. From 2009-2014 he was the Editor-in-Chief of the Journal of Neuroendocrinology, and is currently an Associate Editor for Endocrinology. He was elected chair of the FASEB Meeting on Growth Hormone/Prolactin family for the 2021 meeting.
