Prof Amanda Page

Head of the Vagal Afferent Research Group
School of Biomedicine
The University of Adelaide

Director of Nutrition, Diabetes & Gut Health
South Australian Health and Medical
Research Institute (SAHMRI)

amanda.page@adelaide.edu.au

Friday 20th of May

1.30 pm AEST | 3.30pm NZST | 1pm ACST

The impact of pregnancy on gastrointestinal satiety signals

Prof Page's overarching research vision is to improve understanding of the physiology and pathophysiology of GI vagal afferent signalling, with the ultimate aim to provide new pharmacological targets or dietary therapeutic approaches for treatment of diseases, such as obesity and functional dyspepsia.
